PROFESSIONAL SUMMARY

Senior software engineer with 7+ years of experience delivering enterprise Drupal and web platforms. Brings hands-on expertise in content migrations, custom modules, component-based theming, REST integrations and production support, with an expanding Cloud and DevOps portfolio spanning AWS, Docker, Kubernetes, Terraform, Ansible, Jenkins and CI/CD automation.

TECHNICAL SKILLS

Cloud and DevOps: AWS (EC2, Lambda, S3, IAM, VPC, ECR, EKS), Docker, Kubernetes, Terraform, Ansible, Jenkins, GitHub Actions, CI/CD, Linux, NGINX, Apache
Software Engineering: Drupal 7/8/9/10, PHP, Python, JavaScript, REST APIs, Composer, Drupal Core APIs, custom modules, Twig, Paragraphs, HTML5, CSS3
Data and Delivery: MySQL, SQL, Migrate Plus, Migrate Tools, Redis, Varnish, Git, blue-green deployments, Agile Scrum, application troubleshooting

PROFESSIONAL EXPERIENCE

Clean Harbors India LLP | Drupal Developer

Jun 2021 – Present | Hyderabad, India

- Led the migration of an enterprise website from WordPress to Drupal 9, building repeatable Migrate Plus and Migrate Tools pipelines for content, taxonomies, users, media and legacy URL redirects.
- Designed structured content models and reusable editorial components using Drupal fields, Paragraphs and Twig templates, improving consistency for content authors and maintainers.
- Developed and maintained custom Drupal modules, themes and REST integrations to support business workflows and connect the platform with internal and third-party services.
- Improved application performance by reviewing cache behavior, Drupal render paths and database queries; supported Redis and Varnish caching strategies for production workloads.
- Supported deployment and operational workflows across Linux, NGINX and Apache environments using Composer and Git, including release validation, configuration management and rollback-aware practices.
- Contributed to Drupal 9 and Drupal 10 readiness by addressing deprecations, reviewing contributed modules, maintaining custom code and documenting support and release procedures.

CYK Solutions Pvt Ltd | Drupal Developer

Sep 2020 – Jun 2021 | Hyderabad, India | Client: Pyrite Technologies

- Delivered a Drupal 7 to Drupal 8 migration for Pyrite Technologies within a three-month timeline, translating legacy content structures, workflows and site behavior into the target platform.
- Planned and supported a blue-green deployment approach to enable a controlled cutover, release validation and a clear rollback path during the migration launch.
- Built custom migration plugins and transformation scripts to handle complex fields, taxonomy relationships, media references and component-style content structures.

PROFESSIONAL EXPERIENCE CONTINUED

CYK Solutions Pvt Ltd | Drupal Developer
Sep 2020 – Jun 2021 | Hyderabad, India | Client: Pyrite Technologies

- Performed source-to-target validation through content checks, exception reporting and stakeholder review to protect data integrity before each deployment candidate.
- Contributed to Agile delivery through sprint estimation, technical discovery, wireframe-to-build implementation, peer reviews with Coder and Devel, and client communication.

Drupal Freelancer and Community Contributor | Drupal Developer
May 2018 – Sep 2020 | Hyderabad, India

- Delivered Drupal implementation, migration and support work for Drupal Hyderabad, Swecha, FSMI and NPDE, adapting delivery practices to community and client needs.
- Built responsive, component-based experiences with Paragraphs, Twig, Bootstrap, HTML5 and CSS3, enabling content teams to compose and maintain pages more independently.
- Migrated Drupal 7 content models and relationships to Drupal 8, including fields, taxonomies, media and editorial components, with validation before launch.
- Maintained multiple Drupal sites through core and contributed-module updates, Composer dependency management, security patching, spam protection and production troubleshooting.
- Participated in Drupal Hyderabad as a community organizer and contributor, sharing implementation practices and supporting local open-source collaboration.

SELECTED CLOUD AND DEVOPS PROJECTS

Cloud Native DevOps Platform on AWS | Terraform, Ansible, Jenkins, Docker, Amazon EKS, Prometheus, Grafana — Built a hands-on platform demonstrating infrastructure automation, container delivery, Kubernetes deployment and observability.

AWS Serverless Architecture | AWS Lambda, Python, Boto3, EventBridge, IAM, CloudWatch — Implemented event-driven cloud patterns with least-privilege access and operational logging.

TravelMemory Infrastructure | Terraform, Ansible, AWS — Created repeatable infrastructure provisioning and configuration workflows for an application environment.

Kubernetes Microservices Task | Docker, Kubernetes — Packaged and deployed containerized services with Kubernetes manifests, services and rollout-focused operations.

EDUCATION AND PROFESSIONAL DEVELOPMENT

Education: Bachelor of Technology in Computer Science — NRI Institute of Technology / JNTU Kakinada, 2012–2016
Professional Development: Generative AI for Data, Tech and Finance — Hero Vired, issued Feb 2026
Community: Drupal Association individual member; Drupal Hyderabad community organizer and contributor
